1) Claims 1 to 4, 6 to 8, 10 to 13 and 17 are pending in the instant application. Claims 1, 7, 8, 10, 11 and 17 have been amended and claims 5, 9, 14 to 16 and 18 to 34 have been canceled as requested by Applicant in the correspondence filed 30 August of 2004. As all of the pending claims are allowable, they have been renumbered 1 to 12, respectively.

2) The Advisory Action mailed 22 September of 2004 was sent to Applicant in error and is hereby vacated.

3) The drawings in the instant application do not comply with 37 C.F.R. § 1.821(d), which requires a reference to a particular sequence identifier (SEQ ID NO:) be made in the specification and claims wherever a reference is made to that sequence. M.P.E.P. 2422.02 expressly states that "when a sequence is presented in a drawing, regardless of the format or the manner of presentation of that sequence in the drawing, the sequence must still be included in the Sequence Listing and the sequence identifier ("SEQ ID NO:X") must be used, either in the drawing or in the Brief Description of the Drawings". Figure 1 of the instant application presents three amino acid sequences without employing the required sequence identifiers.

4) This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 C.F.R. § 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 C.F.R. § 1.821 through 1.825. Specifically, no sequence listing has been provided which includes all three of the amino acid sequences presented in Figure 1 of the instant specification. Applicant needs to provide a substitute computer readable form

Art Unit: 1646

(CRF) copy of a "Sequence Listing" which includes all of the sequences that are present in the instant application and encompassed by these rules, a substitute paper copy of that "Sequence Listing", an amendment directing the entry of that paper copy into the specification, and a statement that the content of the paper and computer readable copies are the same and, where applicable, include no new matter, as required by 37 C.F.R. §§ 1.821(e) or 1.821(f) or 1.821(g) or 1.825(b) or 1.825(d). The instant specification will also need to be amended so that it complies with 37 C.F.R. § 1.821(d) which requires a reference to a particular sequence identifier (SEQ ID NO:) be made in the specification and claims wherever a reference is made to that sequence. For rules interpretation Applicant may call (703) 308-1123. See M.P.E.P. 2422.04.
